civilizations: The Western European, The American and the Japanese. Civilization II is a city-building video game, in which the player must manage a civilization's development through the course of thousands of years. In this game, however, the player is challenged by not only the environment, but also by the civilizations around them. For example, when constructing a city, a player must balance profit from producing buildings to obtain resources with the cost of building and maintaining structures. Simultaneously, players must construct a government to manage their city's affairs, which may include both building and maintaining defense
