Product Key Explorer

Product Key Explorer Cracked Accounts can scan your system and retrieve the serial and product keys of installed software. With this application you can search all Windows applications and the most used Office applications like Word, Excel, PowerPoint, Outlook, Access, etc. This application automatically scans a complete network or an IP address range and retrieves all available serial and product keys. If a serial key is not found on the local computer the application will search the network for a match. It's easy to use and the interface is very easy to navigate. With the option to back up your results to a specific registry format or a CSV format, XML format, HTML, Access Database or Microsoft Excel format you can always use a backup copy if the application fails. It includes the retrieval of serial and product keys even when Windows saves them to registry hives other than 'HKLM' and 'HKCU' which means that you don't need to modify your registry as the program does all the work for you. So install and run Product Key Explorer and let it do its job! This is an the ideal solution to retrieve keys you've forgotten or lost. Features: - Works with Windows applications - Scan a network or an IP address range - Automatically recovers keys from registry hives other than 'HKLM' and 'HKCU' - Back up your results to a specific registry format or CSV format - Option to show the 'Save data' window after finishing the scan - Backup results to a specific registry file format - Export as XML format - Export as CSV format - Export as HTML format - Export as Excel format - Export as Access Database - Export as Tab Delimited Txt File - Export as Web Page - Delete 'missing' keys - Sort all results per application - Save the results to CSV format - Sort applications per product key - Sort applications per version - Sort applications per product name - Sort applications per product version - Sort applications per product family - Delete 'missing' keys - Delete 'empty' keys - Sort serial keys per application - Add new applications for backup - Retrieve all product keys - Product Key Explorer - Support (Questions, Reviews, Support)Q:

Why is Ubuntu struggling to login to Gmail? I am using Ubuntu-10.10 alongside windows 7. I am trying to login to my Gmail account through my browser but am unable to do so. 09e8f5149f

Product Key Explorer Download

- Find Serial Keys for Windows and Office Applications: Identify and view your software serial keys. Product Key Explorer can find serial keys for any of your installed applications, such as Excel, Word, Access, Visual Basic, Visual Basic for Applications, Adobe Reader, Filemaker, Kingsoft Office, Microsoft Project, and dozens more. You can also extract registry entries that contain the serial keys or view the key entries in a simple table. Product Key Explorer Checker What do you do when you have lost or not used a product key or license for one of your programs and you're not sure if the serial number provided by the customer is valid? Then there's Product Key Explorer, one of the most accurate and easiest to use solution, you can set it up to check the legitimacy of a serial number or license to make sure the registration for a software is valid. This very important software tool can be easily set up to search for serial numbers in databases, files, or even in a specific region, its automated checking process can be fully controlled by you, the software can generate multiple types of reports, which are very easy to follow, and you can keep them all in one easy to read document. Other programs can be launched from the main window and the list can be sorted and filtered so it takes very little time and effort to have all your information in one place for you to easily manage it. With a couple of clicks of a button you can backup the registry data to a file (reg) or save it as a txt, csv,.csv,.txt,.html,.html,.xml format. All in all, a very powerful and useful software that certainly deserves a try. Here are a list of programs that are similar to Product Key Explorer: Buy Product Key Explorer 1) Serial Number Scanner 3.31 Serial Number Scanner is a free & professional version that detects all product keys from Microsoft Office XP to most recent version. This program can detect and list most of Windows Serial numbers and some other products. It's a very fast and easy to use application, its main purpose is to quickly scan your computer and list all of the product keys that exist on your system. If you wish to, you can manually choose the product to be scanned and the serial keys are listed in a table. Serial Number Scanner can export the generated report in two formats, one is a text file which can be simply

What's New in the Product Key Explorer?

Product Key Explorer is a very handy software solution that can scan your computer and retrieve product keys for installed applications. The program relies on a very clean interface, with a well-organized list that displays the product name, data info and product data straight in the main window. Product Key Explorer can search for serial keys for basically any piece of software that's installed on your system, including Windows and Microsoft Office. The scanning process takes just a few seconds and the application provides multiple tools to help you manage the product keys in a comfortable manner. You can always back them up to a registry file format (reg), but also save them separately as Tab Delimited Txt File (.txt), CSV Comma Delimited (.csv), Excel Workbook (.xls), Access Database (.mdb), Web Page (.html) or XML data (.xml). Another very interesting feature is the possibility to scan an IP range or an IP address list and extract the product keys, but remember that you need administrator privileges to be able to view the data. Checking an entire network can take up to several hours, depending on the number of clients, but Product Key Explorer doesn't stress up the computer too much and remains light on resources. A help file is always there to help you, with tons of information regarding every single feature that's included in the app. So as a conclusion, Product Key Explorer is quite an effective way to deal with lost or forgotten serial keys. It's easy to use and it takes just a few seconds to reveal the information. Platform: All versions of Windows (from XP to the current versions of Windows and Windows Server) Internet Explorer versions 8.0, 8.1, 9, 10 PDF Reader included System requirements: Windows 7, 8 or 8.1 License key: $59.00 Downloaded 791 times. Ratings of 9.5/10 (users): Store Comments download attachments wp-post-image-0.jpg 320x310 44.47 KB Uncompress This is a free and very powerful program that I use frequently. Just remember to buy a licence to use it. Related News: Product Key Explorer is a very handy software solution that can scan your computer and retrieve product keys for installed applications. The program relies on a very clean interface, with a well-organized list that displays the product name, data info and product data straight in the main window
