It was developed by 1C Company and published by ASCARON Entertainment GmbH, JoWooD Productions Software AG, and DreamCatcher Interactive Games. While largely a combat-free simulation game, it does have a few vehicles and a deep trading system that supports a vast number of products for a variety of uses. Tons of new, exotic, rare and bizarre items can be found on the road to acquire and sell. The game was set in a "Dogpatch", a region of New San Diego, California. There is also an American section for the Pacific coast. The game was a standalone Windows game. Plot Gameplay is in the third person, and begins with the player assuming control of a new arrival to a new town, a truck driver. The player begins at the nearest city in the San Diego area, Uptown, and must make it to Tijuana by completing shipments of cargo along the way. There are four primary modes of gameplay: Truck delivery, Truck hauling, Truck convoying, and Truck escorting. Delivery plays in the third-person mode, and is a pure driving game where the player must arrive at the assigned delivery port and deliver cargo as efficiently as possible. There are no other tasks necessary, and no missions available other than delivery. If the player fails to make delivery within the allotted time, he will be forced to return to the station and repeat the assignment, along with any earned money. The better the time achieved, the more money the player earns. Hauling plays in a top-down view, and requires the player to drive a truck while safely picking up and dropping off cargo. There are no other objectives here but for the player to deliver the cargo at each destination and return. Again, the better the time, the more money. Convoying involves driving multiple trucks at once. The player must manage fuel, weaponry, and cargo between the various trucks. If they run out of fuel while driving, the player is able to refuel and continue on, although at a slower pace. Weapons and ammo can be purchased as needed from the shops or smugglers along the way. The player may run into collisions that they cannot avoid, such as hitting a deer, but not all collisions are fatal. 3da54e8ca3
