Express Lite is a simple application designed to enable you to manage a list of contacts and send them newsletters. It is very useful for mail marketing! Express Lite supports both Windows Phone 7 and Windows Phone 8. There are a number of useful features that help you in managing your list of contacts including: * Import or export contacts from and to CSV files * Sort contacts * Search contacts by first/last name, e-mail, phone number and more * Send e-mails to all contacts in a list * Add e-mail to contacts from/to address book * Set sending frequency * Set sending schedule * Add new contacts * Show contact list * Deactivate contacts * Block contacts * Show address book contact * View/hide duplicate contacts * Delete contact * Backup contacts * Add custom view * Open contacts * Define/save color for contacts * Sync contacts between Windows 8 and Windows Phone 8 Here is a screenshot of Express Lite: What's new in Express Lite 1.0.0.0: It is updated to include Windows Phone 8.* app features. It includes many new features and bug fixes. It will also work on Windows Phone 7.8.It's that time of year again. I just returned from going through my worst fears. It happened to me four years ago, and it happened to another of my friends four years ago. It's kind of a Christmas tradition. The fear, of course, is that you are going to let your spouse down. And you are. The denial is about as
