Q: JQuery edit Div background color, on hover show some other color i have this example link : Basically i want my divs to have different background colors, on hover show other color, so my example is doing that but on each div, and they don't have the same as in hover. I can be able to do this with css and not with jquery but i would rather use jQuery since it would be more easily maintainable and scalable.

So how to achieve this using jQuery?

```
$('#div').hover(function () {
$(this).css("background-color", "lightgrey"); },
function () { $(this).css("background-color",
"white"); }); $('#div').hover(function () {
$(this).css("background-color", "lightblue"); },
function () { $(this).css("background-color",
"white"); });
```

A: OK I just "found" the problem and the answer : `$('#div').hover(function () { $(this).css("background-color", "lightgrey"); }, function () { $(this).css("background-color", "white"); });` this is because of that i am going to mouseout and mouseout is doing the same
