Gorakh Prasad Lectures on Differential. German payrolls grew by just 54,000 in June, capping a disappointing quarter for the economy. Jobs have contracted in six of the last seven months, and after double-digit gains in the spring and early summer, the latest figures mark the weakest start to a year since the financial crisis. "Although the labor market appears to be strengthening, the pace of gains has slowed markedly," said Michael Darda, a senior vice president at the jobs-focused outsourcing firm Challenger Gray & Christmas. "The decline in hiring has also been broad-based."ref-type="fig"} and [3](#f3-epj-10-7054){ref-type="fig"}, according to the results of the research, the GA is able to bring a 20% decrease in the time of the experiment, and a 60% decrease in the total number of used samples and readings. Therefore, the results of this study showed that the GA method is more efficient than the GC method. Results of this study showed that the overall level of the gas sample quality depends on many factors such as the gas flow rate, number of sample solutions, sampler position, volume of sampler, storage time of the gas samples, etc. The results of this study showed that some of the factors that influenced the quality of the gas samples during the gas chromatographic analysis, were mentioned in detail below. First, among the factors mentioned, the temperature of the gas sample, the sampler position, and the storage time of the gas samples were the factors found to have a direct effect on the gas sample quality. The results of this study showed that the sampler position had a direct effect on the gas sample quality. In other words, changes in the position of the sampler decreased the level of the gas sample quality. 5ec8ef588b
